

SALSA₄

The ABC Design Salsa 4
One stroller, endless versatility.

THINK BABY

We consider our job to be the best in the world. Miracles and happiness are part of our workdays and our customers' language is made of smiles.

With our products, we accompany parents and their offspring from the first day of their new life together. We create closeness and security, bring special moments of happiness, contribute to a pleasant feeling of safety and facilitate family's everyday life.

We are well aware of the high level of responsibility we bear in our work. Parents from all over the world place their trust in us and our products. This is what makes us feel committed. To deal with this trust in a responsible way is both a requirement and an obligation for us.

From the first sketch on a blank piece of paper to the last grip in manufacturing, our ideas, every thought and action are inspired by and oriented towards satisfying the needs of babies. To discern and understand what is best for baby's well-being and their healthy development is our motivation. Starting from this responsibility and conviction, our products are designed and developed.

Urban design and intelligent functions on four easy steer wheels for style conscious and active parents.

Are you bursting with energy? Does your heart beat in tune with the times? Do you think life is for living and do you want to bond with your baby and make the family years the best time of your life? Then experience the joy of living with the Salsa. The Salsa is dynamic, lightweight and extremely easy to manoeuvre. A pushchair with personality which will be a reliable companion to you and your baby from your very first day together, wherever life may take you.

Please note that the colour may vary slightly from the illustration. We also reserve the right to make minor changes to the designs and models.

The Best in German Engineering Top quality from the leading German Brand

Designed and engineered in Germany, the ABC Design Salsa 4 is a luxury, versatile stroller and includes a robust aluminium chassis and high quality seat unit suitable from 6 months which can be both parent and forward facing. Being suitable for children up to 25kg means the Salsa can be used for much longer than the average pushchair. If you wish to make the Salsa 4 suitable from birth, simply add the optional carrycot or group 0+ infant car seat.

From Birth in Two Clicks Simple transformation for extra versatility.

ABC Design have used their worldwide renowned German engineering and knowhow to ensure that the Salsa 4 is as easy to manoeuvre as possible. It's lightweight chassis features puncture resistant, high quality ball bearing wheels to ensure that steering the Salsa 4 is a breeze.

When required, the front swivel wheels can be locked and released simply and the sturdy braking system engages with an effortless press of your foot on the rear brake pedal.

For parents, a height adjustable handle bar and heavy duty suspension provide an extra comfortable ride. Add to this the luxury, leather effect trim and logos, removable bumper bar and UPF 50+ hood, and the Salsa 4 is equipped to handle anything that life can present.

The additional group 0+ infant car seat provides from birth and travel system capabilities and attaches to the stroller with a simple easy-click system and the optional isofix base makes the transition from car use to travel system even simpler.

Overnight Sleeping as Standard

There's more to the Salsa 4 carrycot than meets the eye.

The ABC Design carrycot features the same luxurious high quality fabric and leather trim as the seat unit. As well as also having a UPF50+ hood, the carrycot also features a convenient mosquito net for extra protection.

Thanks to the unique airflow design of the carrycot, it can be used for overnight sleeping and provides a perfectly moderated climate for little ones. A simple clip on either side of the stroller enables changing between seat unit, car seat or carrycot quickly and effortlessly.

I'll be your travelling companion

Your baby can always be with you

Travelling by car is a part of your journey? Then simply take your car seat with you. In just a few simple steps, the seat can be mounted to the pushchair to transform it into a practical travel system. Our choice of adaptors allows you to use different brand car seats.

Features

Reversible Seat Unit

Adjustable Backrest

Adjustable Handle Bar

Adjustable Footrest

Car Seat Compatible

Heavy Duty Suspension

Lockable Swivel Wheels

Ball Bearing Wheels

Water Repellent

I'll discover the world with you

Your baby has everything in its sight

We think a one-way view of the world can become boring. That's why we designed our seat units so they are child's play to reverse. Your baby can either discover the world around or face you when laughing, playing or sleeping.

I'll protect you

Perfectly protected from the sun

Summertime strolls are what we all enjoy the most. That's why it's essential to be protected against the sun's intense heat. The spacious sun canopy on the pushchair offers your baby a protected spot in the shade.

Technical Specifications

Dimension open (L x W x H)	94cm x 62.5cm x 96-104.5cm
Dimension folded (L x W x H)	78cm x 62.5cm x 30.5cm

Stroller, Carrycot & Car Seat

I'll look after you

Perfect support and protection for your baby

Don't worry if your little sunbeam just can't sit still. With the 5-point harness, your baby is optimally secured from falling or slipping out of the pushchair seat.

Street

Graphite Grey

I'll support you

Healthy posture for your baby

Regardless of whether your infant is discovering the world in sitting or is sound asleep. The adjustable backrest ensures an ergonomic sitting and lying position, optimised for your baby's comfort.

Accessories

Footmuff

UV Sunny Parasol

Fashion Changing Bag

I think of Mummy and Daddy too

We also take your body height into account

Whether tall or short - nobody has to suffer from a bad posture when pushing our strollers. Thanks to the height adjustable handle, the pushchair can be perfectly adapted to your body size.
