IMPORTANT KEEP FOR FUTURE REFERENCE
PLEASE READ THESE INSTRUCTIONS CAREFULLY BEFORE USING THIS PRODUCT
Thank you for choosing Obaby. To ensure that your cot is used in accordance with these instructions, please read them fully. This cot conforms to BS EN 716-1 & 2: 2008 and is guaranteed for 12 months from the date of purchase against manufacturing defects. If, however you have any problems, please contact your Obaby retailer from whom you purchased your product, who will take appropriate action.

Your child’s safety may be affected if you do not follow these instructions.

⚠️ **WARNING:** A child’s safety is your responsibility.

⚠️ **WARNING:** Do not use more than one mattress in the cot.

⚠️ **WARNING:** Be aware of the risk of open fire and other sources of heat, such as electric bar fires, gas fires, etc. in the near vicinity of the cot.

⚠️ **WARNING:** Do not use the cot if any part is broken, or missing and use only spare parts approved by the manufacturer, seek advice from your retailer or contact Obaby’s Customer Care - info@obaby.co.uk or 0845 078 0290.

⚠️ **WARNING:** Do not leave anything in the cot or place the cot close to another product, which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords etc.

We recommend you use the Obaby Mattress Size 120 x 60cm for this Cot.

The thickness of the mattress chosen should be such that the internal height (surface of the mattress to the upper edge of the cot frame) is at least 500mm when the base is set in the lowest position and a minimum of 200mm when the cot base is set in the highest position.

The mattress should be no more then 30mm shorter or narrower than the internal length or width of the cot.

One end of the cot has a mark indicating the height of the mattress. The thickness of the mattress used with this cot must not reduce the internal depth (from mattress surface to top of side) to less than 500mm with the base in the lowest position, or 200mm with the base in the highest position.
• If you leave the child unattended in the cot, always make sure that the dropside is in the raised position.

• All assembly fittings should be tightened properly and care should be taken to ensure that no screws are loose, as a child could trap parts of the body, or clothing (e.g. ribbons, drawstrings, necklaces) this could lead to strangulation.

• Please be aware that the lowest base position is the safest and the base should always be used in that position as soon as the baby is old enough to sit up.

• Regularly check that all fittings and components of the cot/bed are fully tightened and in working order.

• To prevent injury from falls the cot should not be used as soon as the child is able to climb out.

• This cot should be assembled by an adult. Please note that this is a heavy cot which will be more easily assembled with the help of an assistant.

ROUTINE CARE & MAINTENANCE

– For cleaning, use only a mild detergent and warm water.

– DO NOT USE BLEACH.

– DO NOT USE any abrasive substances.

– A light application of a wax polish to the dropside grooves in the end panels will aid operations.

– From time to time, check your cot for loose screws, and worn parts. Replace or adjust the parts as needed.

Due to constant updating and improvements, some components may occasionally differ slightly from the images shown in these instructions. We reserve the rights to change the specifications of any products without prior notice. If you need any assistance please contact your Obaby retailer from whom you purchased your product, who will take appropriate action.
Parts check list

- **A**: 40mm Long, x4
- **B**: x1
- **C**: x2
- **D**: x4
- **E**: 65mm Long, x4

[Diagram of a baby crib with parts labeled 1, 2, 3, 4, 5]
Figure 1 - Fasten the fixed side and base to the head board and foot board by using the allen key.

Figure 2 - Lay down the cot on its side on a soft surface, attach the drop side by sliding both tracks in to the connectors at the same time.
Figure 3 - Screw in the stopper (C) to the lower track on both ends.

Figure 4 - To lower the drop side, lift at the centre of the top rail and push the drop side bottom rail inwards with your leg, allow the drop side to slide into its lower position. To raise the drop side to the upper position, lift at the centre of the rail until both ends click into place.
• All Obaby products have a 12 month guarantee from the invoice/receipt date.

• If you have any problems with your product before or after this date please see the retailer you purchased the product from.

• If you need any spare parts please contact the retailer you purchased the product from.
